

UTAH HIGHER EDUCATION STAFF ASSOCIATION
U H E S A

Utah Higher Education Staff Association

2007 Legislative Priorities

The 24,000 plus members of the UHESA would like to submit the following information for your consideration this coming 2007 legislative session:

1. UHESA supports a 4% salary increase and continued coverage of health insurance costs.
2. UHESA supports the governor's recommendation for 2.5% in retention monies.
3. UHESA supports exempting higher education from the budget surplus spending cap.

Any funding put forth for Higher Education should be considered an investment in the state of Utah. How much is invested should help determine how much success Higher Education would have in continuing to affect economic development in the state of Utah in a positive way. **UHESA thanks you for your support!**
