Item # 3 from last month's minutes. Are there any suggestions for legislative priorities or general concerns?

Since we just finished the 2019 session, are there any early priorities or goals already on USHE's radar?

Remember to check Slack often for important conversations and information...Thank You!

There are probably 2 to 3 Legislative issues (other than compensation) that UHESA could provide feedback on each session.

For instance, Student safety & wellness, Access, need-based scholarships (perceptions). Helpful to know where Staff members are on these issues and what they are doing to assist with these issues.

- Do any of our UHESA board members have early policy concerns? We will be sending out a survey but be thinking of issues at your institutions and items that your staff associations are dealing with.
 - Will be sending out a questionnaire to get a gauge of where each institution is and thoughts for early policy
- Become familiar with Higher Ed Policies: General Higher Education Policies:
<https://higheredutah.org/policies>
 - Get familiar with policy to facilitate conversations
 - USHE – Revision of Policy R805, Women and Minorities in Faculty and Administrative Positions will be discussed at this session.

Remember to send Nominations for President-Elect and Treasurer by the end of June.

- Would like to have these in place for the July meeting so they can be there
